

## **Descriptive Report of ADEs Data in Saudi Arabia Q3 2024**

DATA CAPTURE SECTION  
NATIONAL PHARMACOVIGILANCE CENTER

## General notes:

### Data Report: National Pharmacovigilance Centre

- **Source:** Spontaneous Vigilance System, National Pharmacovigilance Centre
- **Scope:** Adverse drug event reports. These are medical occurrences noted after the use of a medication but do not necessarily imply a direct causal link to the drug.
- **Parameters:**
  - Drug reports only (vaccine reports excluded)
  - Data extract from 1 July to 30 September, 2024

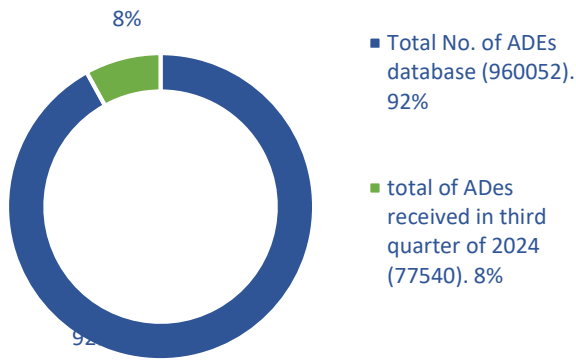

### Understanding Pharmacovigilance

The National Pharmacovigilance Centre plays a crucial role in post-market drug safety monitoring. By collecting and analyzing adverse drug event reports, it helps identify potential safety signals and facilitates interventions to protect public health.

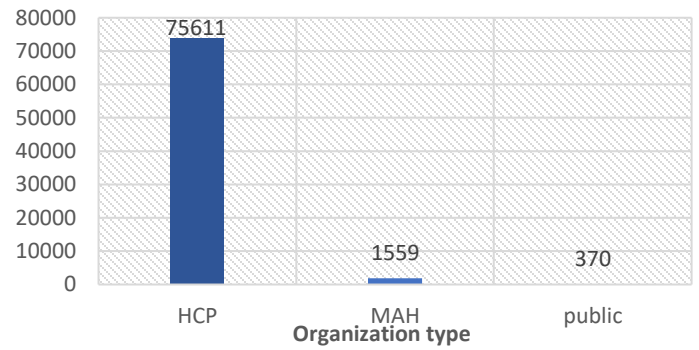

**Important Note:** It's vital to understand that reports of adverse events following drug use do not automatically prove the drug caused the event. Careful assessment is needed to establish any potential relationship.

### Number Of Ades In The System

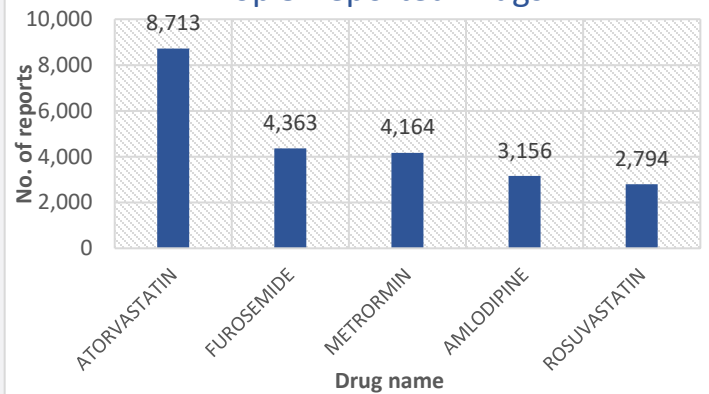

### Number Of Reports Based On Organization Type

### Reports Seriousness

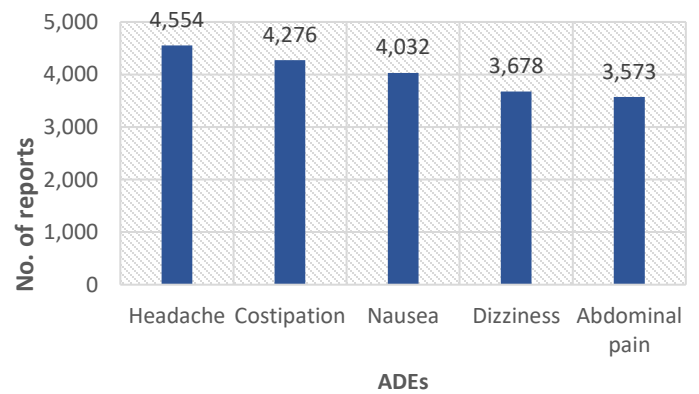

### Top 5 Reported Drugs

### Gender

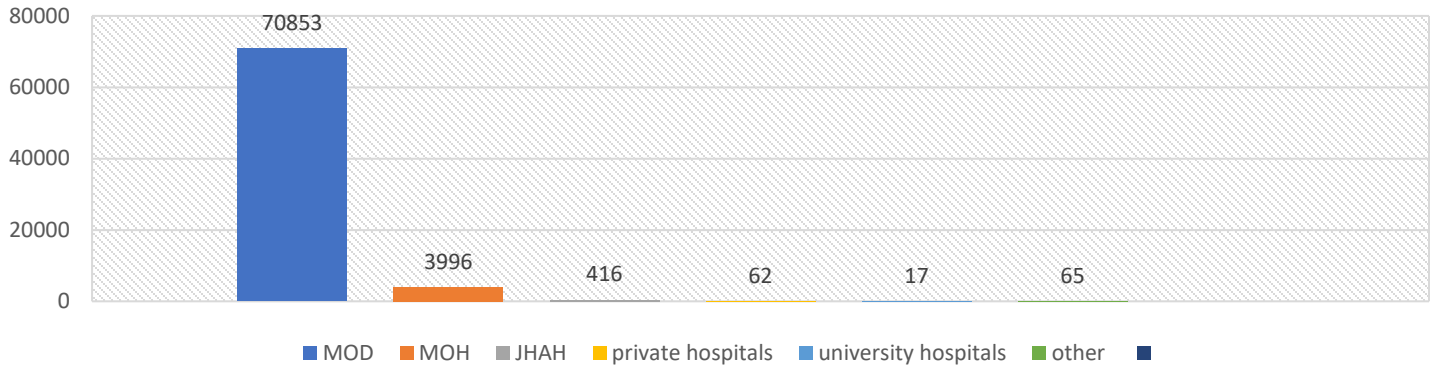

### Top 5 reported ADEs

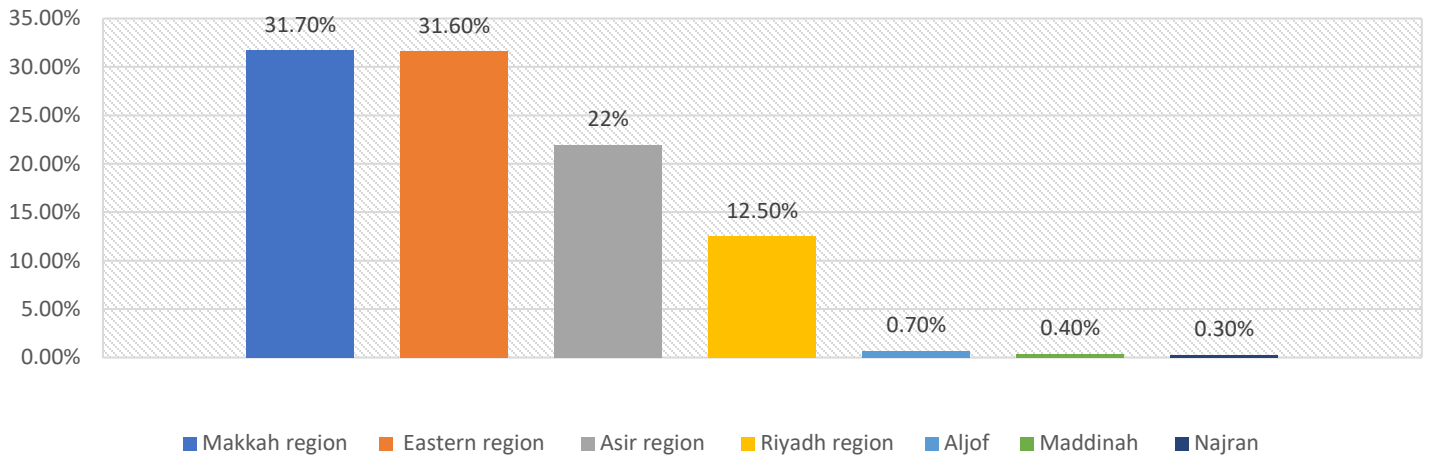

### Contribution In The Database By Administrative Sectors
